Shortly after SAP Addendum #IA-03-06 was released, minor edits in Section 2.2 and the Sample Specification Tables 3 and 4 were discovered (i.e., misplaced location codes, northings and eastings, and errant analytes). The purpose of these replacement pages is to provide continuity between the text and the tables, and make certain that the tables contain the most accurate sample specification information.

In an effort to ensure that this information does not conflict with the actual sampling being conducted, please replace page 4 and pages 10 - 53 of SAP Addendum #IA03-06 with the attached. Please note that the figures are not impacted with this page change and should be retained.
